

The logo for SFS 2, with 'SFS' in a large, outlined font and a smaller '2' in orange to the right.

**Stealth Fastening System**

# Mantle Shelving

For Models MS-1, MS-2 and MS-3

**WG** *Wood Products*

## Instructions:

- Locate your cleat in the shipping box and the screws provided. Mark your wall where you want the shelf to be and screw the cleat to the wall making sure that it is level. Be sure to place the TOP side of the cleat UP (this is the side marked TOP). **IF you have ordered one of the following models, you WILL need to screw at least two screws into studs in your wall because the shelves are very heavy.** (These are generally shelves that are 36" or longer, **AND/OR** 7.25" deep)
  - **MS-136, MS-142, MS-148, MS-154, MS-160**
  - **MS-236, MS-242, MS-248, MS-254, MS-260**
  - **MS-330, MS-336, MS-342, MS-348, MS-354, MS-360**
- Screw your shelf down on to the cleat. (Your screws WILL NOT split the cleat.)
- That's it, you're done!
