

# SPECIFICATION SHEET

## Midland® Series On the wall Spice Racks

**Dimensions:** See dimensions chart

**Materials:** Solid pine

**Mounting:** Can be mounted on the wall using included wall anchors, or on a hollow core door using included hardware. Can also be mounted in the side of a cabinet.

**Finish:** Multiple finishes available

**Features:**

- ✓ Solid wood construction – screwed together to last a lifetime
- ✓ Handcrafted right here in the USA, in sunny Sarasota, Florida!
- ✓ Easy installation
- ✓ Acrylic dowels keep items on the shelves, and are removable to paint or stain it.
- ✓ All openings are 6” high inside

**NOTE:** We do not recommend mounting larger spice racks on a hollow core door simply due to the sheer weight of the unit itself, as well as the amount of weight which could be placed on the rack. 62” and 69” racks, as well as ALL 4.5” deep racks over 48” high are not recommended to be mounted on a hollow core door. If you do not plan on adding anything but spices to your rack, you can safely place any of the 2.5” depth or 3.5” depth racks on a hollow core door. However, because the 4.5” depth racks can easily accept most any size canned goods, adding one of these racks in any size over 48” to the back of a hollow core door could permanently damage your door.
